March 19, 2025

A regular meeting of the **Basic JPA Training ad hoc Committee** took place on the above date, at 11:19 a.m., via teleconference.

Those in attendance were:

Ms. Megan LaMon	Crown Castle NG West Inc.
Ms. Jacqueline Costa	Crown Castle NG West Inc.
Mr. Jeremy Effinger	Crown Castle NG West Inc.
Mr. Lex Treepaisan	Frontier Communications
Ms. April DeBarge	Southern California Edison
Ms. Marisol Bailey	Southern California Edison
Mr. Michael Pearson	Southern California Edison
Mr. Samuel Picazo	Southern California Edison
Ms. Carla Stephen	Southern California Edison
Mr. Cesar Rodriguez	Southern California Edison
Mr. Kristoffer Scheetz	Southern California Edison
Mr. Todd Dailey	AT&T California
Ms. Kay Black	AT&T California
Mr. Aaron Cochran	AT&T California
Mr. Robert Stanard	AT&T California
Ms. Joy Young	AT&T California
Mr. Jeremy Harmon	Verizon Wireless
Mr. Alex Parra	City of Riverside
Mr. Vinh Tran	City of Anaheim
Ms. Maria Ortiz	MCI Metro ATS/MCI Telecommunications/XO Communications
Mr. Irvin Orzuna	City of Glendale
Mr. Salvador Zambrano	City of Burbank
Ms. Yesenia Delgado	Time-Warner Cable
Ms. Lynne LaFrenais	Bear Valley Electric Service, Inc.
Mr. Elias Avila	City of Colton
Ms. Nicole Munoz	City of Colton
Mr. Ben Coffey	City of Banning
Mr. David Campo	City of Lompoc
Mr. Nick Van Stryk	City of Vernon (Petrelli Electric)
Ms. Claudia Arellano	City of Vernon
Ms. Alicia Smith	Sprint Nextel/Sprint Communications
Ms. Shawn Henderson	T-Mobile USA
Mr. Juan Maldonado	T-Mobile USA
Ms. Linda McLean	Extenet Systems

Ms. Heidi Seropian
Ms. Tamara Zaki
Ms. Angela Pranata
Ms. Kathleen Allen

Committee Staff
Committee Staff

Chairperson, Ms. LaMon called the meeting to order at 11:19 a.m. by addressing the first item on the agenda, the review of **February 2025 meeting minutes**.

There were no questions or comments.

The second item on the agenda is the **Final Billing Information – Training Video**.

- Training Videos
 - Completed videos can be found under:
<https://scjpc.net/members/basic-jpa-training/>
- Explaining Final memos/errors through videos
 - Next recorded videos by SCJPC for review
 - Action Items from last month
 - Members to send examples to Ms. Allen two Fridays before the monthly meeting.
 - Ms. Allen is still waiting on SCE to send information on the anchors in order to record the anchor video.
 - Ms. Allen to record videos on arms, billing out of sequence, PTX, and possibly a video on anchors.
 - Ms. Allen to record videos on memo reasons.
 - Ms. Allen to record separate videos on invalid grade and space scenarios.
 - Mr. Bacon, Ms. LaMon, or any other member to send Ms. Allen an example of a PTX JPA if they could find one.
 - Ms. Allen to work on creating a Billing out of Sequence video(s).

Ms. LaMon opened and stated that last month the ad hoc committee discussed Ms. Allen increasing her hours from two hours a month to six hours a month to focus on creating videos. Ms. LaMon then inquired if Ms. Allen moved forward with the six hours. Ms. Allen replied yes and stated that she used all six hours and that she created a PowerPoint presentation. Ms. Allen sent it to the members who were on the original email for feedback and Ms. Allen received none.

Ms. Allen explained for the first video on Billing Out of Sequence series she started very basic and followed the Routine Handbook. Once approved she will start adding examples. Ms. Allen stated she could share the draft. Ms. Allen explained that the PowerPoint Presentation is a draft and that anything could be changed. Ms. Allen displayed the PowerPoint on the screen (see attached). Ms. Allen went over each slide and explained. The first slide shows the Title of the Section and Section number. The next slide is the verbiage from the Routine Handbook. Ms. Allen admitted she was very

happy that Edison shared their job aide with her for this project. The information helped Ms. Allen create the PowerPoint. The following slide is once again information directly from the Routine Handbook. It shows the steps by numbers members must take to complete the Preliminary JPA. Ms. Allen explained that she is going to explain each step in the following slides. Number one *Use red to make the following changes to the Preliminary Form 2.* Ms. Allen used a red font to call the red out. Ms. Allen wanted to make it crystal clear that one must use red. The following slide, step two, *do not add REV to Preliminary Form 2, use original JPA name.* Ms. Allen added that she shows an example as well. The subsequent slide, number three, *Add BOS member to Preliminary Form 2 header and populate.* In the approved field add 18.1G in red, accounting field add Special Billing in red, and if the Member is already on the Header add 18.1G and Special Billing alongside approval name and accounting data or alongside 18.1D. Ms. Allen showed different examples of the header area on the slide for clarity. The next slide Ms. Allen explained, number four, *Add Section 18.1G to the existing Section codes listed in the location and Nature of Work for the applicable poles.* Ms. Allen showed on the slide exactly where in the Nature of Work one would add 18.1G in red. The next slide, number five, *decide if the active, dead, or no SCJPC pole record applies for the record side of the JPA.* Ms. Allen stated this slide explains what record one would use. Ms. Allen then stated the next three slides go into detail and shows examples on which record to use. Active Record: When using the active record, the pole card is the correct pole information just adding the BOS member. The BOS member would be added to the record side. The quantities would include the BOS member. Unlike R01, the date sent should not be changed. Dead Record: When using the dead record, the pole card pole information is the updated or new pole and there is a “missing” replacement that needs to bill. The BOS member would be added to only the proposed side. The quantities would not include the BOS member. The date sent should not be changed. No Record: No record Special Billing is when the BOS member established a joint record on the newer pole, bypassing a pending replacement. Ms. Allen continued onto the next slide, number six, *call out in the Location and Nature of Work the BOS JPA number, and note “Special Billing” Active, Dead, or No Record.* Ms. Allen added examples to this slide as well. When creating the Preliminary JPA one would know where to add the information in red in the Nature of Work. Ms. Allen moved on to the following slide, number seven, *Fill in a Form 7 and check BOS. Add, “see F2 changes in red”.* Ms. Allen displayed the Form 7 example and explained how she updated the Form 7 with the information needed as stated in the Routine Handbook. Ms. Allen checked the BOS box and added SEE F2 CHANGES IN RED in the Remarks area. Ms. Allen moved on to the subsequent slide, number eight, *Process BOS Form 7 and updated Preliminary Form 2 to all members on header, including the BOS member.* Ms. Allen stated that her examples are one the completed Form 7 and two the completed Preliminary Form 2. Ms. Allen reiterated that they both should be sent to all members on the header. Ms. Allen displayed the last and final slide and stated that per the Routine Handbook that *(B) Receiving Member, number one, no additional action required.* Ms. Black commented fantastic, and Ms. LaMon stated this is great and very well done. Ms. Allen confessed that she was nervous and unsure if this is what members were looking for. Ms. LaMon stated very detailed. Ms. Allen then stated that she figured to start with a strong foundation and build from there. Next month Ms. Allen will start with adding examples and hopefully could get at least one completed pending the time it takes to prepare.

Ms. Allen shared that although she had some examples sent to her she has to recreate them using the Preliminary Form 2 since the examples sent to her are on the Final Form 2. Ms. Allen wanted to stay true to the Routine Handbook and try to be exact as possible. Ms. Allen added that after she finishes the Example videos, she would do a video on *How to Avoid a Memo from SCJPC*. Ms. Allen explained the videos will be similar to a series. Start and watch video one then move to video two and so forth. Ms. LaMon stated that this is great and inquired if members have anything else that would like to add. Ms. LaFrenais thanked Ms. Allen. Ms. McLean stated she would like a copy of the PowerPoint presentation. Ms. Allen explained that her plan that once this is approved, which she is assuming it is, create a video and explain the PowerPoint presentation as well. Ms. Allen will have it uploaded to the SCJPC website attaching the PowerPoint presentation. Ms. Allen informed the ad hoc committee additionally when she sends out the minutes to the members for review, she will include a copy of the PowerPoint presentation she created as well. Ms. McLean thanked Ms. Allen. Ms. LaMon stated that she did not hear anyone opposed and think the ad hoc committee agrees.

Ms. LaMon then inquired if the ad hoc committee needs to address the potential issue of Ms. Allen's additional hours to create videos monthly. Ms. Black stated that after what Ms. Allen produced it is money well spent. Ms. McLean, Ms. LaMon, and Mr. Treepaisan agreed. Ms. LaMon added that BOS is the main training topic currently, and Ms. Allen cannot move on to any other training topic until the BOS series is completed.

There were no further questions or comments.

The third item on the agenda is the **Interpretation of Billing (standing agenda item – 11/16/2022)**

There were none.

The fourth item on the agenda is **Miscellaneous**.

There were none.

Review of Action Items:

- Ms. Allen to continue to work on creating Billing out of Sequence video(s).

The meeting adjourned at 11:27 a.m. until April 16, 2025.

Transcribed by Ms. Kathleen Allen – Committee Staff

18.1

BILLING OUT OF SEQUENCE (BOS)

18.1G WAS ADDED TO THE ROUTINE HANDBOOK IN 2024. THIS WAS AN ALTERNATIVE TO CORRECTION OF RECORD JPAS RESULTING FROM MEMBERS BILLING THEIR JPAS OUT OF SEQUENCE.

18.1G READS: IF THE ISSUING UTILITY FINDS THE SCJPC RECORD REFLECTS CHANGES FROM ANOTHER UTILITIES JPA THAT BILLED OUT OF SEQUENCE (BOS), THE FOLLOWING PROCESS IS USED TO RECONCILE THE POLE RECORD AND BILLING.

18.1G Billing Out of Sequence

If the issuing utility finds the SCJPC record reflects changes from another utilities JPA that Billed Out of Sequence (BOS), the following process is used to reconcile the pole record and billing.

(A) Issuing Member:

1. Use RED to make the following changes to the Preliminary Form 2.
2. Do not add REV to Preliminary Form 2, use original JPA name.
3. Add BOS Member to Preliminary Form 2 Header and populate:
 - Approval field – add "18.1G".
 - Accounting field - add "Special Billing". (If the Member is already on the Header add 18.1G and Special Billing alongside approval name and accounting data or alongside 18.1D.)

4. Add Section 18.1G to the existing section codes listed in the Location and Nature of Work for the applicable poles.
5. Decide if the Active, Dead or No SCJPC pole record best applies for the Record side of the JPA.
6. Call out in the Location and Nature of Work, the BOS JPA number and note, "Special Billing Active, Dead, or No Record." (If multiple poles, make this call out only on the poles where it applies.)
7. Fill in a Form 7 and check BOS. Add, "See F2 changes in Red".
8. Process BOS Form 7 and updated Preliminary Form 2 to all Members on Header, including the BOS Member.

(B) Receiving Member:

1. No additional action required.

(See Section 13.1 for additional information. See Purchase Interest BOS example B13, Section 21, Pole Replacement BOS example C11, Section 21.) (Revised October 2024).

PRELIMINARY SETUP

(A) ISSUING MEMBER"

1. Use **RED** to make changes to the Preliminary Form 2.
2. Do NOT add REV to Preliminary Form 2, use original JPA name.
3. Add BOS Member to Preliminary Form 2 Header and populate.
4. Add Section 18.1G to the existing section codes listed in the Location and Nature of Work for the applicable poles.
5. Decide if the Active, Dead or No SCJPC pole record best applies for the Record side of the JPA.
6. Call out in the Location and Nature of Work, the BOS JPA number and note, "Special Billing Active, Dead, or No Record." (If multiple poles, make this call out only on the poles where it applies.)
7. Fill in a Form 7 and check BOS. Add, "See F2 changes in **Red**".
8. Process BOS Form 7 and updated Preliminary Form 2 to all Members on Header, including the BOS Member.

1. USE **RED** TO MAKE THE FOLLOWING CHANGES TO THE PRELIMINARY FORM2:

2. DO NOT ADD REV TO PRELIMINARY FORM 2, USE ORIGINAL JPA NAME

JPA									
Auth. No.	E6034-405972103								

3. ADD BOS MEMBER TO PRELIMINARY FORM 2 HEADER AND POPULATE

- Approval field - add "18.1G"
- Accounting field - add "Special Billing"

4. ADD SECTION **18.1G** TO THE EXISTING SECTION CODES LISTED IN THE LOCATION AND NATURE OF WORK FOR THE APPLICABLE POLES.

LOCATION AND NATURE OF WORK <small>If not in accordance with Joint Pole agreement and routine state re-arrange.</small>
E TO REPLACE SEC 7.4, 7.7, 1.2, 18.1G
CENTURY BL S/S 82' W/O ORANGE AV

LOCATION AND NATURE OF WORK <small>If not in accordance with Joint Pole agreement and routine state re-arrange.</small>
NG TO PURCHASE SEC 4.0, PL ARM SEC 3.0, 18.1G

5. DECIDE IF THE ACTIVE, DEAD, OR NO SCJPC POLE RECORD APPLIES FOR THE RECORD SIDE OF THE JPA.

Determine the changes made to SCJPC record and how it effects your JPA.

This will determine which SCJPC record you will want to use (Active, Dead, or No Record)

ACTIVE - When using the ACTIVE record, the pole card is the correct pole information just adding the BOS member. The BOS member would be added to the record side. The quantities would include the BOS member. Unlike a R01, the Date Sent should not be changed.

DEAD - When using the DEAD record, the pole card pole information is the updated or new pole and there is a "missing" replacement that needs to bill. The BOS member would be added to only the proposed side. The quantities would **not** include the BOS member. The Date Sent should not be changed.

NO RECORD - No Record is when the BOS member established a joint record on the newer pole, bypassing a pending replacement.

ACTIVE RECORD WHEN USING THE ACTIVE RECORD, THE POLE CARD IS THE CORRECT POLE INFORMATION JUST ADDING THE BOS MEMBER. THE BOS MEMBER WOULD BE ADDED TO THE RECORD SIDE. THE QUANTITIES WOULD INCLUDE THE BOS MEMBER. UNLIKE A R01, THE DATE SENT SHOULD NOT BE CHANGED.
