CALL TO ORDER

Mr. Treepaisan notified the committee that Mr. Bacon, the President, was called away for an urgent matter and was unable to attend the meeting, and had asked Mr. Treepaisan to facilitate the Administrative Board meeting.

Mr. Treepaisan, Vice President of SCJPC, called the meeting to order at 9:01 a.m. on behalf of City of Los Angeles. Mr. Treepaisan then proceeded with roll call. When the roll call was completed City of Los Angeles, DWP (M) and City of Azusa (MA) were not in attendance.

There were no questions or comments.

HOUSEKEEPING:

Mr. Treepaisan requested that members who are teleconferencing mute their phones so that no interference is picked up. He added that if the teleconferencing members must step away from the meeting please inform the chair when they leave and return to the meeting, in the event that a vote call transpired in their absence. Additionally, he asked members, before speaking, to please state their name and company first, then proceed with comments or questions. If someone else is talking, please do not talk over them because it is hard to hear and incoherent.

Mr. Pranata announced that only SCJPC staff are authorized to record the meeting or use AI note taking tools for official documentation. Members and their guests are not permitted to record the meeting or use AI note taking tools. As a result, Ms. Pranata removed Read AI from the meeting.

There were no questions or comments.

APPROVAL OF MINUTES:

Mr. Treepaisan inquired whether the members reviewed the minutes of February 18, 2026, Administrative Board meeting and if there were any comments, additions, deletions, or revisions. In that there were no corrections, Mr. Treepaisan then solicited a motion to accept the minutes as written. Ms. Dizon motioned to accept February 18, 2026, minutes as written. Ms. Black seconded the motion, which after the vote tally was completed, passed unanimously.

There were no questions or comments.

MANAGER'S REPORT

Ms. Pranata reported that the February 2026 Gross Expenses and Capital Investments totaled \$121,699.72, and the members were assessed \$122,199.72 due to a \$500.00 attendance penalty to one member.

There were no questions or comments.

COMMUNICATIONS:

There were no Communications.

SPECIAL REPORTS:

There were no Special Reports.

SUB-COMMITTEE REPORTS:

Authorized Cost ad hoc Committee

Ms. Pranata reported that Authorized Cost did not meet last month.

Compliance ad hoc Committee

Ms. Black reported that the ad hoc committee met last month and that no discussion occurred, as there were no newly opened issues.

For additional information, she referred the members to the meeting minutes.

Computer Communications ad hoc Committee

Ms. DeBarge reported that Computer Communications did not meet last month.

Routine Revision ad hoc Committee

Ms. Ortiz reported that the Routine Revision committee met last month and reviewed proposed changes to Section 3.15, which will continue to be discussed later that day.

She directed members to the minutes for full details.

Basic JPA Training ad hoc Committee

Ms. Dizon reported that the ad hoc committee met last month. Ms. Black and Ms. Allen presented an alternative method to simplify billing when a final JPA is issued out of sequence. The proposal recommends billing only the incoming JPA in the order received, rather than crediting and rebilling prior JPAs. Examples demonstrated a significant reduction in processing time, from 45 minutes to 15 minutes per pole, while still ensuring appropriate member compensation. Although Ms. Allen noted that additional data is needed to assess long-term viability, committee members requested time for further review and agreed to revisit the proposal once more examples are available.

For additional information, she referred the members to the meeting minutes.

Operating Committee

Mr. Treepaisan reported that the ad hoc committee met last month. Discussed was timelines related to late penalties. Priority JPAs utilized the buffer month in January and are currently manageable, Ms. Allen will advise if conditions change. The committee also discussed staffing assessments, including pay rates and the possibility of hiring external billers.

He directed the members to the minutes for all the details.

CONSENT CALENDAR:

2026 Proposed Pole Prices Draft 01 (reviewed and recommended by the Authorized Costs Committee)

- Sent via email 2/3/2026, 3/3/2026, and in packet

Mr. Van Stryk opened the discussion and stated that the Pole Prices had been provided and that committee members had sufficient time to review them. Mr. Van Stryk then moved to approve the 2026 Proposed Pole Prices, Draft 01. Mr. Treepaisan seconded the motion, which passed following the vote tally, with Ms. Howell abstaining.

There were no questions or comments.

Closed Items

Ms. Pranata inquired whether committee chairs had any item numbers they wished to close. Ms. Black stated that AT&T California requests closure of *Item 1801: Review of Pole Price Calculations*, and *Item 1802: Review of Authorized Cost Calculations*. Ms. Black explained that AT&T California intends to withdraw the current items, reevaluate the approach, and return with new topics, citing limited momentum on the existing items. There were no objections.

Items 1801 and 1802 were subsequently closed.

All other items remain open.

New Business

Known Items:

There were no Known Items.

Unknown Items:

Historical JPA Availability (AT&T California, K. Black)

Ms. Black asked about the availability of JPAs prior to 2003, noting that the SCJPC website states JPAs are available from 2003 to the current bill cycle. She inquired whether SCJPC maintains archival records for bills prior to that time. Ms. Pranata explained that SCJPC has JPAs from January 1991 through June 1996 stored on microfiche, which were later scanned to PDF. Other than these records, SCJPC does not retain JPAs prior to 2003, as earlier paper copies were likely discarded. Ms. Black asked about the process for accessing JPAs from 1991–1996 and whether members could request assistance. Ms. Pranata confirmed that members may email SCJPC to request those records. She explained that the microfiche files are organized by account number and bill of sale rather than by JPA number, which is why they are not posted on the website. Ms. Black expressed appreciation for the clarification. Ms. LaFrenais then asked whether copies of 1991–1996 JPAs could be provided despite the workload involved. Ms. Pranata confirmed this was possible and noted that if files are large or

multiple PDFs are required, they can be uploaded to a SharePoint folder for download. Ms. LaFrenais and Ms. Black both expressed appreciation for the assistance.

There were no further questions or comments.

Reminder: Proper Cable Routing (City of Riverside, A. Parra)

Mr. Parra stated that the issue serves as a general reminder to exercise care when installing fiber or other equipment on utility poles. He described a recent incident in which a gang-operated switch on one of the poles could not be operated because a fiber cable had been routed around the switch handle. As a result, the crew experienced difficulty performing load transfer operations and had to temporarily reposition or remove the cable in order to operate the switch. Although Mr. Parra did not personally visit the site or receive photos, he confirmed the crew was ultimately able to complete the work. Mr. Parra emphasized that the purpose of raising the issue was not to assign fault, but to reinforce proper construction and installation practices. He noted that cables should not be routed through or around operational components, particularly those associated with critical infrastructure. While relocating or rotating an existing switch is often impractical, cable routing should be carefully considered during installation and design to avoid interfering with equipment operation in the future. Mr. Treepaisan stated that the situation appeared to be a non-conformance with standard procedures and asked whether any photos were available. He also inquired whether the fiber was looped or simply dangling around the switch mechanism. Mr. Parra explained that the switch had functioned properly prior to the installation of the newer cable, and that the issue arose during an upgrade from a smaller communication line to newer fiber. He believes the new cable was inadvertently routed behind a clamp and wrapped around the switch handle, obstructing its operation. He reiterated that this was raised as a general awareness item for all parties involved in similar projects, given the critical nature of switching equipment. After sharing an image showing the fiber wrapped around the switch handle and messenger support, Mr. Parra noted that while the exact degree of interference was unclear, the installation was clearly inconsistent with proper practice. Mr. Treepaisan concluded that the fiber placement prevented proper operation of the switch and thanked Mr. Parra for the reminder. He asked if there were any questions, and none were raised.

There were no further questions or comments.

Policy Changes (standing agenda item)

There were no Policy Changes.

SCHEDULE OF FUTURE MEETINGS:

Mr. Treepaisan announced that the next meeting is scheduled for Wednesday, April 15, 2026, noting that it may be the final opportunity to meet in person. He asked whether there is interest among members in holding an in person meeting next month. Ms. LaFrenais indicated that she would like to attend in person. Mr. Parra stated that if it is the last meeting, he believes it is worth attending. Ms. Pranata advised that she

would circulate additional information regarding lunch arrangements and related details.

There were no further questions or comments.

SOUTHERN CALIFORNIA JOINT POLE COMMITTEE
 POLE COSTS SUBMITTED BY MEMBERS FOR USE IN DETERMINING
 JOINT **WOOD** (Weighted Average) POLE PRICES FOR 2026 - Draft 1 - 1/20/2026

Weighted average pole costs are computed as follows: The pole costs submitted for each pole height are multiplied by the number of poles, per pole height, set by the submitting members in the last year. The total of these costs are then divided by the total number of poles, per pole height, set by each submitting member in the last year. The resulting figure is the weighted average pole cost. The weighted average of Cost F.O.B. becomes the salvage value.

Members who chose to be included in the weighted average and submitted prices: AT&T California (H/T) and City of Colton (F).
